SUMMARY

Frontend Developer with 6 years of experience, eager to contribute to a dynamic engineering team. Skilled in delivering quality frontend solutions, with strengths in technical expertise, teamwork, adaptability, and a commitment to continuous learning.

EXPERIENCE

ConnectWise - Senior Front-End Engineer

Bengaluru

03/2024 - Current

- Developed complex user interfaces using React, ensuring high performance and responsiveness.
- Contributed to product development from concept to deployment with a user-centric approach.
- Led the migration from an older tech stack to a modern React-based architecture.
- Implemented comprehensive unit test cases using Jest and Enzyme for robust code. Collaborated with Django backend teams to optimize API usage and data flow.
- Worked closely with cross-functional teams to deliver high-quality products on time.
- Advocated for best coding practices, leading to improved code quality and team efficiency.

Accenture - Senior Analyst

Bengaluru, IN

11/2021 - 03/2024

- Frontend Developer specialized in React.JS, Redux and JavaScript for product deliverables.
- Proficient in utilising SCSS/CSS to create well-organized and maintainable stylesheets.
- Implemented a comprehensive suite of unit tests using Jest & RTL to ensure the reliability and stability of React components.
- Pioneered A/B testing and optimisation efforts, resulting in 25% boost in user engagement and conversions.
- Mentored multi-region team, enhancing candidate preparedness for client-specific requirements.
- Conducted impactful interviews for key roles, facilitating onboarding of top talent crucial to team success.

Comviva - Senior Engineer / Software Developer

Bangalore, IN

11/2018 - 11/2021

- Contributed to development of aesthetically pleasing user interfaces using React.JS for clients
- Led creation and maintenance of an automation framework using Node.js, adopting behaviour-driven testing paradigm for backend automation.

SKILLS

- UI
- React.JS
- JavaScript (ES6+)
- Redux
- API Integration/RESTful APIs
- HTML/CSS
- Responsive Design
- Testing (Jest/RTL)
- Node.js
- MySQL
- Full-stack development

EDUCATION

International Institute of Information Technology

Bhubaneswar, India

B.Tech: Computer Science & Engineering
GPA: 75.4

Saraswati Vidya Mandir

Berhampur, Odisha

XII CHSE: Science

GPA: 81.83

Saraswati Vidya Mandir

Berhampur, Odisha

X HSC

GPA: 90.83

Resulted in a 50% reduction in testing time and a 30% increase in overall testing efficiency.

- Provided Level 3 production support for high and critical incidents, Actively participated in UAT software release activities.
- Conducted in-depth analysis of systems flow, data usage, and work processes.
- Proficiently managed agile workflows, contributing to increase in project delivery speed.

Infosys - Intern

Mysore, India

01/2018 - 07/2018

- Successfully developed a 3-level platformer game using JavaScript, garnering a nomination for the Best Project Award.

ACCOMPLISHMENTS

Smart India Hackathon 2017 - Finalist

Developed Convolutional Neural Networks utilizing pre-trained weights to classify input images. Designed and implemented a solution as part of a hackathon, incorporating technologies such as Python, TensorFlow-Slim, Java for Android, and algorithm development.
