SUMMARY

Results-driven Frontend Developer with 6+ years of experience building and managing web applications that drive product success. Skilled in React.js, JavaScript, and modern web technologies, with a strong focus on delivering high-quality, user-centric solutions.

EXPERIENCE

ConnectWise - **Senior Front-End Engineer**
Bengaluru
03/2024 - Current

- **Developed complex, high-performance user interfaces** with React, focusing on responsiveness and user experience.
- **Led the migration to a modern React architecture**, enhancing system efficiency.
- **Implemented robust unit tests** with Jest and Enzyme, ensuring code quality.
- **Collaborated with Django backend teams** to optimize API usage and streamline data flow.
- Worked closely with cross-functional teams to **deliver high-quality products** and **advocated for best practices**, improving overall team efficiency.

Accenture - **Senior Analyst**
Bengaluru, IN
11/2021 - 03/2024

- **Frontend Developer specializing in React.js, Redux, and JavaScript** for delivering high-quality products.
- **Proficient in SCSS/CSS**, creating maintainable and well-structured stylesheets.
- **Implemented unit tests** using Jest and RTL to ensure React component reliability.
- Led **A/B testing and optimization**, boosting user engagement and conversions by 25%.
- **Mentored a multi-region team**, preparing candidates for client-specific requirements.
- Conducted interviews, facilitating the onboarding of **top talent** essential to team success.

Comviva - **Senior Engineer / Software Developer**
Bangalore, IN
11/2018 - 11/2021

- **Developed visually appealing user interfaces** with React.js for client projects.
- **Led the creation of a Node.js automation framework**, using behavior-driven testing, reducing testing time by 50% and increasing efficiency by 30%.
- **Provided Level 3 production support**, resolving high-priority incidents and participating in UAT release activities.
- Conducted **system flow and data analysis**, optimizing processes.
- **Managed agile workflows**, contributing to faster project delivery.

SKILLS

- UI
- React.JS
- JavaScript (ES6+)
- Redux
- API Integration/RESTful APIs
- HTML/CSS
- Responsive Design
- Testing (Jest/RTL)
- Node.js
- MySQL
- Full-stack development

EDUCATION

International Institute of Information Technology
Bhubaneswar, India

B.Tech: Computer Science & Engineering
GPA: 75.4

Saraswati Vidya Mandir
Berhampur, Odisha

XII CHSE: Science
GPA: 81.83

Saraswati Vidya Mandir
Berhampur, Odisha

X HSC
GPA: 90.83

INTERNSHIP

Infosys
Mysore, India
01/2018 - 07/2018
Successfully developed a 3-level platformer game using JavaScript, garnering a nomination for the Best Project Award.

ACCOMPLISHMENTS

Smart India Hackathon 2017 - Finalist
Developed Convolutional Neural Networks utilizing pre-trained weights to classify input images. Designed and implemented a solution as part of a hackathon, incorporating technologies such as Python, TensorFlow-Slim, Java for Android, and algorithm development.
